

ARCONAS

Place[®]

DESIGNED BY CURT FENTRESS
AND MICHAEL McCOY

Place®

Introducing Place, the next-generation public seating system delivering comfort and practicality in an elegant new design. With integrated power and USB at every seat, generous tablet arms, drink holders, under-seat storage – and plenty of personal space – Place lets travelers work, read, game or consume media in style.

The Place system's support beam creates more under-seat space and safely conceals all power cords for integrated power modules.

Power for Everyone

Passengers can charge laptops, tablets, phones, MP3 players and gaming devices using Place's integrated power units. Each seat can be equipped with an AC connection and two powered USB ports. Blue LED lamps indicate that power is available.

Power pod with standard arm

Power pod with tablet arm

Place with standard arms.

Cantilevered seating provides ample under-seat storage space for carry-on luggage and other bags.

Place with tablet arms.

Optional tablet arms create even more personal space between seats so passengers can eat, work or play in comfort.

Place with tablet arms and integrated drink holders.

Drink holders accommodate a range of cup and bottle sizes to keep things clean and prevent spills.

Place®

Michael McCoy

"These days, people need more comfort and space – for devices, food, bags and other items. They also need somewhere to recharge, in every sense of the word. We designed Place to be an elegant, ergonomic seating system that serves people's needs. With Place, every seat is the best seat in the house."

Curt Fentress and Michael McCoy's inspiration for Place.
