

Hop Bench

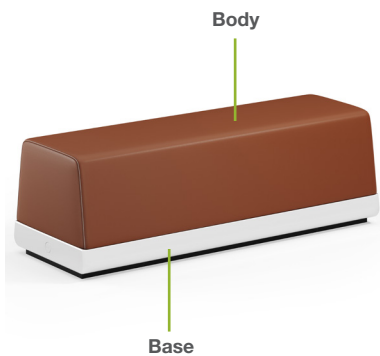

Specifications

Designer
Republic of II by IV

OVERVIEW

- HOP is a bench that can be used as a standalone component, or in conjunction with other products in the Hopscotch collection to create a comfortable lounge environment
- The tops and sides of the HOP bench are wrapped in foam and upholstered with material of the customers' choosing.

CONSTRUCTION DETAILS

Body

- The hop bench is made from HR foam over a robust core. The core is made from a reclaimed bonded fiber capped top and bottom with plywood (1/2" top, 3/4" bottom). The core is glued and screwed together.

Base

- The base is made of cast aluminum flat sides and extruded aluminum angled sides that match the angle on the top foam.
- The base comes standard in bright polished aluminum finish, and is also available powder coated in Arconas standard colors.
- The bottom plate is welded CRS.
- The bottom plate is fitted with 4 adjustable glides.

Upholstery

- The bench is upholstered with a customer chosen fabric. The seams around the top edge are French stitched. The cover is stapled to the base and fitted with a dust cover on the bottom surface.

Assembly

- Units are shipped fully assembled.
