

Available with
high-back only

Bernù® Luxe

The Bernù® Luxe is ergonomically sculpted to provide superior support over long waiting periods. The seat's contoured metal profile, high-back, foot rest, and plush padding provide exceptional comfort and durability for high-traffic waiting areas. Users can lay their head back, put up their feet, and relax.

- Compatible with any Bernù® Aero beam mounted seating system
- Upholstered pads are seamless for maximum service life
- Modular system allows any seat or back pad to easily be replaced without disassembling the whole seat
- Available with or without arms and all legs have adjustable leveling glides
- Seats and backs are roll formed steel covered with injected moulded foam

Designer

Davide Tonizzo
